

# CAND-4E Series

## RAID 5 Network Attached Storage

[enterprise level]

Expand the storage space of your business network and protect your important files with Cavalry's fast and powerful CAND-4E Series network attached storage device.

The CAND-4E Enterprise Series is Cavalry's Business Class Network Attached Storage system. The unit combines four (4) 32 MB cache drives with SATA 3 Gb/s transfer rate for demanding server and storage applications.

The CAND is a cost-effective external network disk array perfect for designed for small businesses. Connect it directly to your network and connect your office onto the network without a server computer. Use it as an FTP server, media storage server or back up critical data. Network setup is simple, and you can leave the CAND on indefinitely after installation, meaning your files are always accessible. And setting up a print server without a dedicated computer is easy--just connect your printer to the built-in USB 2.0 port of the CAND!

The quad-bay array boasts exceptional heat dissipation, remarkable durability, state-of-the art shock absorption and superior all-around performance.
